Is it spring yet?

We are deep into the winter doldrums and while lazing away on my couch in my fuzzy socks and cocoon of blankets, I've been dreaming of all the wonderful things warmer weather will bring. Thoughts of longer days, flip-flops, and being outside in the sunshine without the need of a puffy coat float through my head, and nestled in my blankets I've begun to plan all the outdoor activities I want to do throughout the spring and summer. I love to go out for a walk or a bike ride and I've found some great trails throughout Missouri I want to explore and even found some beautiful sights to take in on balmy, sunny days.

If you feel the pull of the warmer seasons and want to explore Missouri’s vast amount of trails, parks, and attractions as I do, there are some books that highlight the best spots for your next adventure on the next page. Now back to planning!
